SUMMARY

Junior Full Stack Developer with professional internship experience building and enhancing web applications using React.js, Next.js, TypeScript, and Node.js. Experienced in REST API integration, MongoDB, real-time communication with Socket.IO, and working with existing codebases. Familiar with Git-based collaboration, debugging, and developing responsive, maintainable web interfaces.

TECHNICAL SKILLS

- Programming Languages : JavaScript, TypeScript,
- Frontend : HTML, CSS, React.js, Next.js, Tailwind CSS
- Backend : Node.js, Express.js, REST APIs
- Database : MongoDB
- Real-time :Socket.IO
- Tools :Git, GitHub, Postman, VS Code

EDUCATION

Master of Computer Applications (MCA)	2024
Rajarshi School of Management of Technology, Varanasi	7.33 CGPA
Bachelor of Computer Applications (BCA)	2021
Mahatma Gandhi Kashi Vidyapith, Varanasi UP	65%

EXPERIENCE

Classy Endeavors

Full Stack Developer Intern | March 2026 – Present

- Developed and enhanced responsive web application interfaces using React.js, Next.js, TypeScript, and Tailwind CSS.
- Integrated REST APIs with frontend components and worked with MongoDB-backed application workflows.
- Contributed to real-time application features using Socket.IO and event-driven communication.
- Debugged existing application issues, implemented fixes, and collaborated with team members through Git/GitHub workflows.
- Improved website SEO through metadata optimization and on-page enhancements.

PROJECTS

HiveRadar | HiveRadar.com

Technologies: Next.js, TypeScript, Tailwind CSS, i18n, SEO

- Developed responsive frontend interfaces using reusable, component-based architecture with Next.js and TypeScript.
- Implemented internationalization (i18n) to support multilingual website experiences.
- Contributed to SEO improvements through metadata configuration and on-page optimization.

GetNorthPath | GetNorthPath.com

Technologies: Frontend Development, API Integration, Responsive UI

- Developed responsive website interfaces and reusable UI components for an immigration services platform.
- Integrated frontend components with backend APIs to support interactive user flows and dynamic application data.

EProcureAI | eprocureai.com

Technologies: Next.js, TypeScript, Tailwind CSS, Node.js, Socket.IO

- Contributed to procurement and vendor management interfaces using Next.js, TypeScript and Tailwind CSS.
- Integrated frontend components with REST APIs and MongoDB-backed application workflows.
- Supported selected backend and real-time communication functionality using Node.js and Socket.IO.
